

BEHIND THE ENERGY SCARE

A fascinating audio-visual presentation that gives clear answers to these vital questions:

Are we really running out of energy?

Must we submit to more government controls?

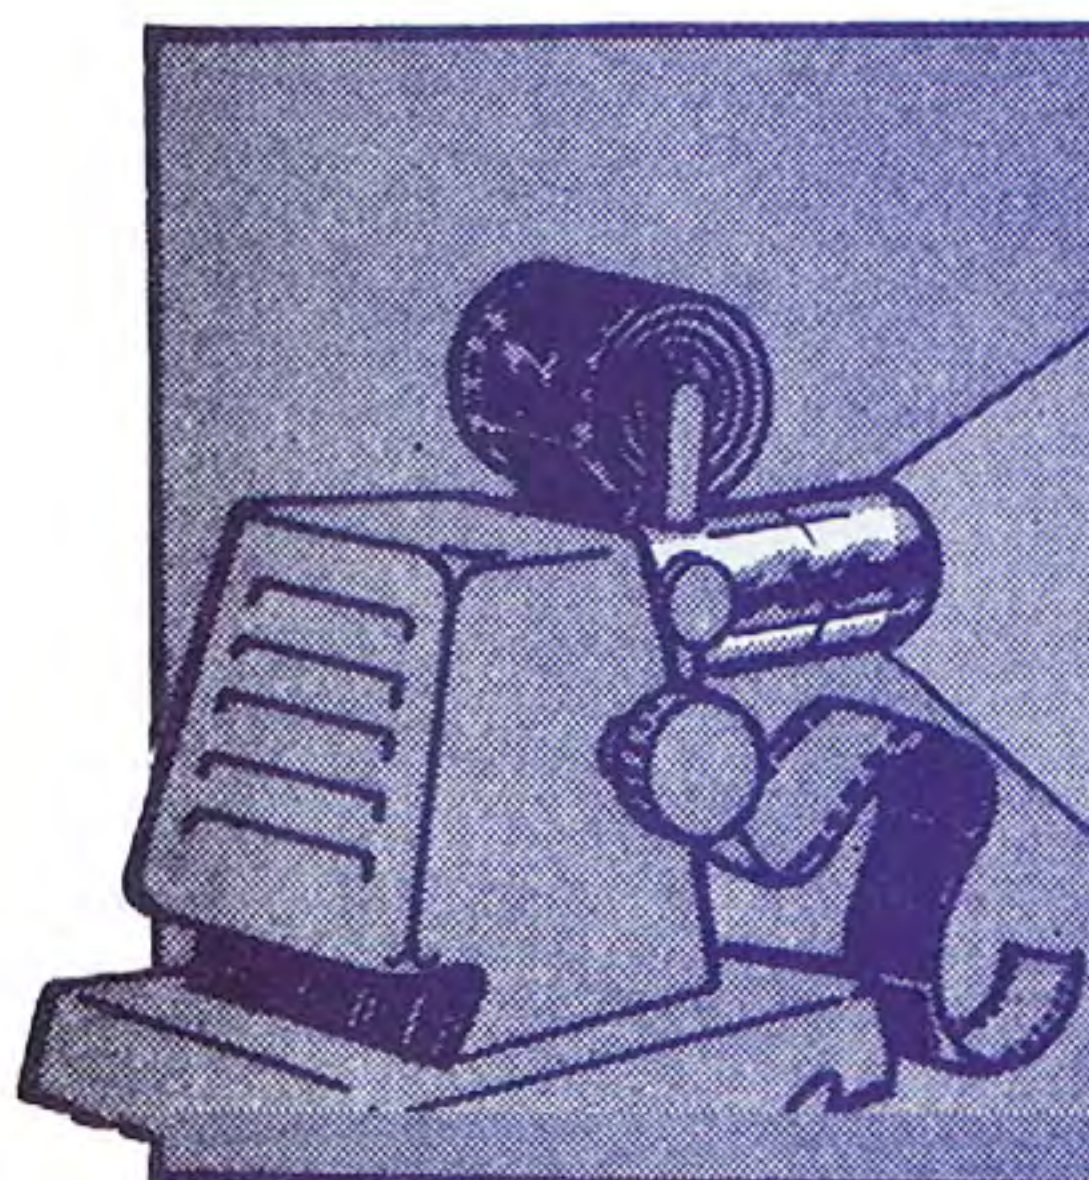

What must be done to ensure future energy abundance?

Are you beginning to feel guilty about taking the family for a Sunday ride, owning an electric mixer, or for merely being a citizen of the most prosperous nation in the world? That wouldn't be surprising considering the accusations of gluttony in energy consumption and predictions of disaster that are bombarding you from every corner.

But, a growing number of Americans are acquiring a healthy skepticism when it comes to such scare-tactics, especially when the doom-sayers demand that we surrender our resources or our freedom to act in our own

behalf in order that the self-appointed messiahs might save us from ourselves. And that's why we urge you to see *Behind The Energy Scare*, a fascinating filmstrip that puts the energy problem in a refreshing new light and provides the facts and perspectives you'll need to understand what is really going on.

No matter what you do, the energy issue is going to have a major impact on your future; the information in this important film could help you to ensure that the impact will be favorable. So, don't panic — but do plan to see *Behind The Energy Scare*.
